# ACTIVATING "IE MODE" IN THE MICROSOFT EDGE BROWSER

With the sunsetting of Internet Explorer on June 15th, 2022, Microsoft has built a feature in the Edge Browser called "IE Mode", which will allow for the continued use of Internet Explorer and it's unique script control, "Active X".

To activate IE Mode:

1. Open the **Microsoft Edge** browser

2. In the upper right corner, click on the Ellipsis (3 dots) `...`

3. Select **Settings** ⚙ Settings

4. From the menu on the left side, select "**Default Browser**"

   🔲 Default browser

5. Under **Internet Explorer compatibility** select "**Allow sites to be reloaded in Internet Explorer mode**"

   Allow sites to be reloaded in Internet Explorer mode ⑦ | Allow ⌄ |

   When browsing in Microsoft Edge, if a site requires Internet Explorer for compatibility, you can choose to reload it in Internet Explorer mode

6. In the **Internet Explorer mode pages** section, click "**Add**"
   Internet Explorer mode pages   ⟶ | Add |

   These pages will open in Internet Explorer mode for 30 days from the date you add the page. You have 1 page that'll automatically open in Internet Explorer mode.

7. A window will pop up, enter in the URL
   http://www.labelsanywhere.com.au/

   ## Add a page

   ✕

   Enter a URL:

   http://www.labelsanywhere.com.au/
   | **Add** | Cancel |

8. Browse to the website, **www.labelsanywhere.com.au**. Your toolbar should look like the photo below, a small Internet Explorer icon appears in the far left of the address bar & below that it will say "**You're in Internet Explorer mode…**"

If the browser is still not in IE Mode:

9. Click on the Ellipsis (3dots)

10. Select "**Reload in Internet Explorer Mode**"

11. Move the slider to the right to activate "**Open this page in Compatibility Mode**," "**Open this page in Internet Explorer mode next time**" and then click "**Done**"

If you run into any issues please send screenshots of your error message to our support email at support@edpllc-usa.com.
